

SPEED UP YOUR SANDING WORK

RESIN FIBER DISCS

 **WALTER**
Surface Technologies

THE LONGEST LIFE & HIGHEST OVERALL MATERIAL REMOVAL IN THE INDUSTRY

WALTER resin fiber discs have been engineered to provide the highest quality finished products always delivering:

- **Increased productivity** with our advanced abrasive grain blends and mounting options designed to deliver maximum stock removal on metals. This allows operators using WALTER resin fiber discs to take on more jobs and increase efficiency.
- **Longer product life** thanks to durable vulcanized backing and disc engineering. Less changeovers and less discs used benefit both your operations and the environment.
- **Superior operator safety** with resin fiber discs that meet EN 13743 safety standards.
- **Pairing WALTER sanding discs with proprietary backing pads** helps minimize warping and allows for maximum contact with the workpiece to help achieve a smoother finish.

Select the right resin fiber disc for the job

Select based on **powertool and material**

APPLICATION	SANDING			
Power tool used	ANGLE GRINDER + BACKING PAD			
Material	HARD	STEEL	STAINLESS	ALUMINIUM AND NON-FERROUS METALS
Disc selection	XTRACUT (15A)	XTRACUT (15A) COOLCUT XX (15X) TOPCUT (15P) COOLCUT (15C)	COOLCUT XX (15X) TOPCUT (15P)	COOLCUT XX (15X)
Preferred Backing Pad pairing	High Performance Rubber Backing Pads (15-D)	Turbo Backing Pads (15-M)	Turbo Quick-Change Backing Pads (15-M)	Backing Pads (15-D)
	XTRACUT	COOLCUT XX XTRACUT	COOLCUT XX Quick-Change XTRACUT Quick-Change	COOLCUT TOPCUT

Get the most out of WALTER Fiber Discs

Unique packaging for optimal performance

- Packaging keeps disc shape intact condition as when it left the factory, which prevents warping, enhancing performance, safety and durability.
- Ensures the longest life, most aggressive removal rate and best overall performance.

Ask your Territory Manager about our full lineup and full sku listing.

	COOLCUT™	TOPCUT™
Application	For general purpose sanding	
Value proposition	The perfect sanding disc for general purpose sanding. COOLCUT™ is a great solution for blending in welds and finishing on steel surfaces.	The highest performance zirconia alumina sanding disc. Fast removal rate with cooler cutting to reduce heat generation and prevent warping or discoloration.
Grain type	Aluminum Oxide	Zirconia Alumina
Grits available	24, 36, 40, 50, 60, 80, 100, 120	24, 36, 60, 80
Sizes	4 1/2", 5", 7"	4 1/2", 5", 7"
Metal compatibility	Steel	Steel and Stainless Steel
Series	15-C	15-P

XTRACUT™ & COOLCUT XX™ are available in a Quick-Change format for easier mounting & faster disc change outs

	COOLCUT XX™	XTRACUT™
Application	For heavy-duty sanding	
Value proposition	The COOLCUT XX™ is the longest lasting fiber disc with high stock removal designed for cool cutting action steel, stainless and aluminum.	XTRACUT™: The quickest and most aggressive sanding disc for steel production. XTRACUT™'s extreme removal rate, long life, and competitive price helps improve productivity by up to 17% vs competing products*.
Grain type	Ceramic	Ceramic
Grits available	Regular: 24, 36, 50, 60, 80, 100, 120 Quick-Change: 36, 50, 60, 80, 120	Regular: 36+, 60+, 80+ Quick-Change: 36+, 60+, 80+
Sizes	Regular: 4 1/2", 5", 6", 7" Quick-Change: 4 1/2", 5", 7"	Regular: 4 1/2", 5", 6", 7" Quick-Change: 4 1/2", 5", 7"
Metal compatibility	Steel, Stainless Steel and Aluminum	Steel and Stainless Steel
Series	15-X	15-A

* Based on a case study done on a steel wheel manufacturer from IOWA who used WALTER's XTRACUT™ sanding disc.
