

# AUTOMATION & ROBOTICS

Abrasives, tooling, and finishing solutions to help you increase productivity, achieve more consistent results, and save cost.

 **WALTER**  
Achieve Greatness™

## HOW CAN AUTOMATION AND ROBOTICS HELP YOUR COMPANY?

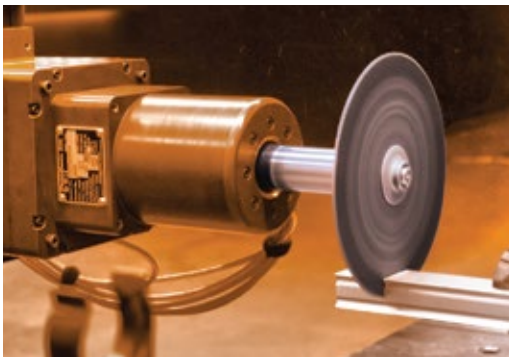

By implementing automation and robotics, your company can optimize its processes which can lead to significant improvements such as:

- Higher productivity & efficiency
- Achieving more consistent quality
- Long-term cost savings

Our automation solutions can address many of the challenges facing the industry today, including workforce shortages, incorrect product applications, and long cycle times on metal working applications.

---

## PARTNER WITH WALTER FOR YOUR AUTOMATION PROJECTS

- Whether you are looking to optimize an existing robotic application, or are interested in learning more about automating your current manual operations, our team of experts will guide you through the process.
- We will connect you with the right partners to make your automation project a success. Our strong network of experts consist of:
  - Robot manufacturers
  - System integrators
  - End-of-Arm tools and accessories
- With our extensive range of capabilities, you'll benefit from having a single manufacturer who can provide expert advice across multiple applications ensuring that your automation needs are not just met but exceeded.

## OPTIMIZE YOUR ROBOTIC MATERIAL REMOVAL WITH WALTER SOLUTIONS

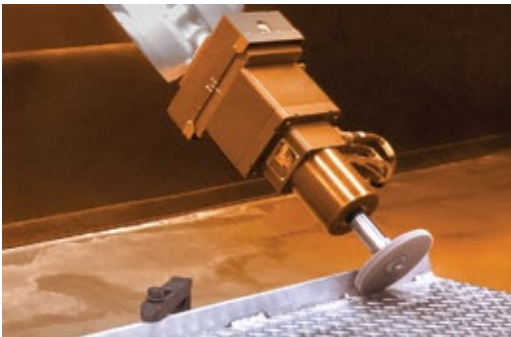

### GRINDING, WELD BLENDING & BEVELING

Whether you need to grind welds, remove excess material, or bevel parts, WALTER offers high-performance abrasives that will allow you to optimize your robotic material removal operations.

### DEBURRING & DEFLASHING

WALTER's wide selection of high-performance abrasives and top-quality carbide burrs are the best solutions when it comes to robotic deburring and deflashing of various materials—from metals to composites—to achieve the best consistent finishes and the highest uptime from your robotic cell.

### BRUSHING & WELD CLEANING

Whether you need to remove millscale, rust, paint, or clean welds, WALTER offers the best abrasive solutions in the industry that go from wire brushes to unitized wheels specifically designed to excel in automated processes.

### DRILLING & HOLE MAKING

WALTER, and Drillco provide a complete range of reliable, best-in-class tooling that addresses the automation of all drilling, hole making & threading operations, ensuring the highest output.
